

**PanelShop.com  
Offers Engineering  
Expertise to AI  
Software Company &  
Robotics Integrator**

**INDUSTRY SERVED**

Material Handling/Engineering

**SPECIFICATIONS**

130+ Siemens VFDs, Line reactors, fuses, 480-240V Transformer, AB CompactLogix Controller, 24vDC power supply

“We came to PanelShop.com with a project that was too expansive for our own engineering resources. PanelShop.com assisted in design, layout, build, procurement, and even shipping. We simply told them what we needed our panel to do and they handled the rest!”

- Nick Buchta,  
Project Manager

**COMPANY CHALLENGE**

Universal Logic, Inc., an AI software company and robotics integrator that offers supply chain solutions, needed a design and complete build of control panels to house 130+ VFDs and a PLC. With a low bandwidth of in-house engineering resources, Universal Logic Inc. needed a turnkey solution they could trust.

**OUR SOLUTION**

PanelShop.com has the engineering expertise, the capacity, and the customer service to take an initial design from concept to completion. Assisting with everything from the design to shipment of the products, PanelShop.com supplied Universal Logic, Inc. with four large enclosures with VFDs laid out in a grid, and one smaller enclosure to house controls. By handling each individual project with complete dedication, PanelShop.com enhances customer confidence and satisfaction.

**ABOUT UNIVERSAL LOGIC, INC.**

Universal Logic Inc. provides supply chains with complete automated material handling systems for high-mix/high-volume applications. Systems integrate artificial intelligence with vision, grasping, and motion control, giving machines human-like flexibility at high speed.

**ABOUT PANELSHOP.COM**

PanelShop.com is an engineering solutions company providing custom electrical control panels and products. We take custom orders from concept to completion, working closely with our customers to meet their unique needs.

Customers who partner with PanelShop.com receive the same engineering support, customer service, and high-quality production of a large electrical engineering firm. PanelShop.com delivers high quality panels so that you can focus on your core business. We solve engineering challenges and build panels so that you don't have to.
